Executive Summary

Computer Science and Engineering undergraduate with a strong foundation in Python, Object-Oriented Programming, SQL, databases, and software development. Hands-on experience in developing applications using Flask, REST APIs, MongoDB, Pandas, NumPy, and Scikit-learn through academic and internship projects. Possess strong analytical, problem-solving, and programming skills, with practical exposure to Full Stack Development, Machine Learning, API integration, and Git/GitHub. Seeking an Associate Trainee position to contribute to real-world software projects while further developing technical and professional expertise.

EDUCATION

Bachelor of Engineering — Computer Science and Engineering

NPR College of Engineering and Technology, Dindigul, Tamil Nadu | CGPA: 6.5/10 | Expected Graduation: 2027

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML5, CSS3

AI & Machine Learning: Machine Learning, Data Analysis, Data Preprocessing, Model Evaluation, Scikit-learn, Generative AI Fundamentals, LLMs

Frameworks & Libraries: Flask, FastAPI, Pandas, NumPy, Matplotlib

Web Technologies: React.js, Node.js, Tailwind CSS

Databases: MySQL, MongoDB,

Developer Tools: Git, GitHub, VS Code, Postman

Cloud: Basic knowledge of AWS and Microsoft Azure

PROJECTS

AI Phishing Detection System

- Developed an ML-based system todetect malicious URLs and suspicious websites with feature extraction, risk scoring, and prediction history. **Technologies:** Python, Flask, FastAPI, Scikit-learn, Pandas, NumPy.

AI Virtual Assistant (JARVIS)

- Developed a Python voice assistant supporting speechrecognition, task automation, web search, weather updates, application launching, and reminders. **Technologies:** Python, SpeechRecognition, pyttsx3, REST APIs.

Password Strength Analyzer

- Developed a password security tool toanalyze password strength, estimate crack time, and identify common security weaknesses. **Technologies:** Python, Flask, Machine Learning.

INTERNSHIP EXPERIENCE

Oneyes InfoTech

- Completed a technical internship focused on **Data Science and Machine Learning**, applying Python, data analysis, visualization, and predictive modeling skills.

Orvinor

- Completed a technical internship focused on **Full Stack Development**, applying programming skills in Python, React.js, JavaScript, REST APIs, and database management.
